

Your Turnkey Solution to reach Asian Markets

With BAFF Polymech (Pvt) Ltd, a **Hosting company** in Sri Lanka

BAFF Polymech Pvt Ltd (BP) offers to European companies production facilities in its equipped and connected factory premises and a legal entity to export products worldwide. BP is an export oriented company that has the BOI status (board of Investment of Sri Lanka).

BP is one of the SMEs created at the initiative of the Building A Future Foundation founded by Pierre Pringiers, Honorary Consul of Belgium in Sri Lanka, established in the country since 35 years and leading Entrepreneur in the tyre industry with more than 6000 local employees. The Building A Future Foundation (www.bafk.org) is a social entrepreneurship project providing training and employment to local underprivileged youth in innovating and sustainable activities and is a creator of economic activities based on North/South cooperation's for the benefit of Sri Lankan companies and European enterprises.

As a **Hosting company, BAFF Polymech (Pvt) Ltd offers the following services to the European companies:**

- 1/ **The advantages of a BOI company:** Exemption of taxes on the import of raw material and on the export of finished goods.
- 2/ The rent of a **surface** in our factory exclusively dedicated to your production activities.
- 3/ Recruitment of local skilled and/or basic **workers** which salaries include transport, canteen facilities and social charges .
- 4/ Recruitment of a local **Manager**, dedicated to your activity and responsible for the daily management of the project (i.e raw material management, production management, quality control, stock management, writing all official documentations, packaging, shipment of finished products, etc).
- 5/ A **Management support** that include the expertise in local and international logistics, daily management, accountancy, availability of internet/phone/webcam, site security and insurance.
- 6/ **Access to the workshops and machinery** of the Building A Future Foundation.
- 7/ A specific **electricity meter** can be installed to measure electricity consumption of machines belonging to your company.

*The surface rent, the Manager, the workers, the Management support, ... are monthly billed to your company by BP.
Electricity, fuel, water and transport are billed in accordance with actual consumption.*
